

PALMETTO CITIZENS

FEDERAL CREDIT UNION

Educating, motivating and empowering children to become regular savers will help put them on a path to lifelong financial success.

This is why Palmetto Citizens offers financial education programs for your elementary, middle or high school students.

Money Matters - Using simple presentations and hands-on exercises, Palmetto Citizens can help your elementary students learn the basics about money, such as the value of different coins and bills and the differences between needs and wants.

Financial Presentations - Palmetto Citizens is always happy to assist teachers by providing speakers on a variety of financial topics including: budgeting, checking accounts, wise use of credit, investments and credit union careers. We can also provide supplemental materials, like student checkbooks, for use in your classroom.

Reality of Money - Learning wise financial practices early in life will help avoid costly mistakes in adulthood. This presentation focuses on the importance of money management and incorporates a “Reality of Money” interactive experience to show teens how life decisions and events can impact their financial future. Students will also learn about: Setting savings goals, how to create and manage a budget, the cost and wise use of credit and investing for their future.
